LARGE SCREEN

■ Despite its thin format and light weight, the VERSA LITE FXi supports a 12.1" TFT SVGA screen for better viewing comfort. This second-generation display provides brighter colors and crisper detail without using additional battery power. Protected by a magnesium case, the VERSA LITE FXi also comes with 3D surround-sound speakers for a total multimedia experience.

LIMITLESS POWER

■ The VERSA LITE FXi takes advantage of the revolutionary 0.18-micron design of the new Intel® mobile Pentium® III processor featuring Intel™ SpeedStep Technology to deliver unprecedented power in an ultra-portable. And to capitalise on the processor's performance,

the VERSA LITE FXi also comes standard with 64MB RAM, 4MB video and a 6GB, 12GB or 20 GB hard drive.

NO COMPROMISES

■ With the VERSA LITE FXi, you get all the features of a notebook and all the advantages of an ultra-portable. The VERSA LITE FXi comes with a roomy, full-size keyboard and features external CD-ROM and floppy drives. It is available with built-in 56K V90 modem and can be ordered with a Mini-PCI LAN card. Finally, by combining the optional 6-cell main battery with the supplementary 9-cell battery pack, the VERSA LITE FXi provides powerful battery life for mobile users.

READY TO COMMUNICATE

■ Equipped in standard with an internal 56K V90 modem, the VERSA LITE FXi comes with two dedicated hotkeys that provide one-touch access to e-mail and the web. You can stay in touch with your work environment everywhere you go and increase your productivity.

HIGHLY MANAGEABLE

■ Like today's most advanced corporate workstations, the VERSA LITE FXi features a DMI 2.3 compatible architecture and can be remotely managed. In addition, it comes with a Recovery CD, and provides security features such as dual-level password protection, a Kensington cable slot and save-to-file to pre-vent accidental data loss.
