PURE POWER mobile Intel® Pentium® III processor featuring SpeedStep™ Technology

■ As a mobile desktop replacement, the VERSA LXi offers all the power and features you would expect from a high-end desktop. With operating-systems and applications becoming more resource-hungry, the VERSA LXi is available with up to 30GB HDD and lets you expand its RAM up to 512MB. It also comes with the choice of a mobile Intel® Pentium® III processor featuring Intel® SpeedStep Technology (850, 800, 700 and 600MHz). Thanks to SpeedStep™ Technology, you benefit from unprecedented Intel® Pentium® III power when running on AC power and unsurpas-

sed autonomy and performance when running on battery power.

SIZZLING MULTIMEDIA

■ Thanks to its dazzling 15" TFT display, you may forget that you're working on a notebook computer. Powered by a Savage S3 video controller with 16MB SGRAM, the 15" display is a natural partner for the 24x CD-ROM, optional 8x DVD-ROM drive, or CD RW. And to protect this 15" gem, the VERSA LXi comes with a magnesium hardtop.

TOTAL VERSATILITY

■ With its modular VERSABay III, which is backwards compatible with the VERSA LX and SXi, the

VERSA LXi can house a wide range of options: a second Hard Drive, 8x DVD-ROM, 24x CD-ROM, CD RW, Superdisk 120 drive or a weight saving pack. Owning a VERSA LXi guarantees total versatility and investment protection thanks to its innovative design.

READY TO COMMUNICATE

■ Equipped in standard with both modem and 10/100Mbps network connectors (Mini-PCI technology), the VERSA LXi keeps you in contact with your working environment, whether in the office or on the road, with no compromises.
