

The NEC Versa™ P Series of Notebook Computers

Versa P

Dock your Versa P into the Docking Station™ II. Hook up a monitor. Add a keyboard. In seconds your powerful portable becomes a full-blown desktop.

Desktops beware! The Versa P notebook with Pentium™ processing quickly crunches through those "desktop only" applications such as mega spreadsheets, CAD/CAM drawings, multimedia extravaganzas.

Plan on driving the Information Highway? Then make sure your mobile companion has PCMCIA slots. The Versa P does, supporting up to two Type II PC cards or one Type III PC card.

The Versa's nimble, front-mounted 16mm trackball, VersaTrack™, was designed to work with your hand, not against it.

NEC's UltraCare™ service warranty program provides a toll-free service hot line and door-to-door courier service.

Like most, you need to see all of your work, not just a portion of it. Our High-Resolution 800x600 screen displays exactly what you see on your desktop (which is 50% more than a standard notebook). The Full Color screen offers an extensive color palette of over 65,000 vibrant colors.

Whether it's soft rock, the call of the wild, rhythm and blues, or a long-winded technical explanation, the Versa P accepts sound from tape cassettes, VCRs or CD players.

An important element in any computer system is the ease of user upgradeability. The Versa P's memory and hard disk are easily accessible components that plug in and out of the system base.

Capable of doubling battery life or accommodating yet another PCMCIA device, VersaBay™ is ready to meet your ever-changing requirements. Switching gears is simply a matter of removing and inserting an optional VersaBay Pak.

The Versa P Series with Pentium processing and a high-resolution 800 x 600 display is as close to a powerful desktop system as a notebook computer has ever come.

NEC

TECHNICAL SPECIFICATIONS

Models

- TFT Full Color
- Versa P/75C, 75MHz, 340MB HDD
- Versa P/75C, 75MHz, 540MB HDD
- Versa P/75C, 75MHz, 810MB HDD
- TFT High-Resolution Color
- Versa P/75HC, 75MHz, 540MB HDD
- Versa P/75HC, 75MHz, 810MB HDD

CPU

- Intel Pentium 75MHz
- 16KB Cache, Built-In Numeric Coprocessor, 256KB Secondary Built-in Cache

Memory

- 8MB of RAM Standard
- User Upgradeable up to 40MB***

Storage

- User Removable Hard Disk Drives
- 340MB, 540MB or 810MB Std. (See Models)
- User Upgradeable to 810MB
- User Removable Floppy Disk Drive
- 1.44MB 3.5" Disk Drive
- Floppy Drive Resides in VersaBay Slot

Displays

- User Removable/Reversible Displays
- 9.5" TFT Full Color (65,536 Colors at 640 x 480)
- 9.5" TFT High-Resolution Color (256 Colors at 800 x 600)
- Simultaneous Display of External Video and LCD
- High-Performance Local Bus Video with BitBLT Accelerator

Interfaces

- Enhanced Parallel (EPP)
- Serial
- SVGA CRT
- PS/2®-Style Keyboard/Mouse
- Microphone In
- Line In
- Stereo Out

Expansion

- Slide-in Memory Card Slot
- Connector for Versa Docking Options

VersaBay

- For FDD or Optional VersaBay Paks
- Video Pak, PCMCIA Pak, NiMH Smart Battery Pak

PCMCIA Slots

- Compatible with Two Type II Cards or One Type III Card
