VERSA S800

Slim Design for Outstanding Usability and Mobility

Exceptional portability
and performance

Perfect for road warriors, the NEC VERSA S800 is built with a sleek, yet strong magnesium alloy casing that is 25 percent thinner than that of a standard notebook, and able to withstand the rigors of the constant mobile professional.

The NEC VERSA S800 is the world's thinnest notebook that characterized the future of mobile computing and ultimate portability. It incorporates 1.8-inch, 20GB hard disk, and at only 2.6 pounds and just over half-an-inch thin, this ultra-portable computer is ideal for users on the go.

The NEC VERSA S800 is complete with integrated Wireless LAN (802.11a/b) technology and Ethernet connection, a 12.1-inch diagonal display, an Intel® Pentium® III Processor-M Ultra-Low Voltage featuring Intel Enhanced SpeedStep™ technology, and 256MB of RAM. It also features USB 2.0 connectivity.

Note: depending on the country, all configurations may not be available
