VERSA Txi

THE FULLY-FEATURED NOTEBOOK IN A LIGHT SLEEK PACKAGE

EXCEPTIONAL PORTABILITY AND PERFORMANCE

The VERSA Txi is able to offer a complete computing solution to business professionals who require ultra-portability without compromising expandability or performance. The VERSA Txi features the latest Intel® Mobile Pentium® III processors with SpeedStep™ technology at 750MHz, 64MB RAM, 8MB video and a 10GB (or 20GB) hard drive. It's powerful Li-Ion battery provides up to twelve hours of continuous power, ideal for professionals who spend most of their time on the road.

ULTIMATE EXPANDIBILITY

The VERSA Txi comes equipped with an internal media bay. The bay can be fitted with various options for flexible usage. The CD-ROM is included as standard although you have the choice between a CD-R/RW with DVD-ROM drive or a CD-R/RW drive. Audio control keys are provided to facilitate the use of the CD-ROM and DVD-ROM. In addition it incorporates removeable Li-Ion battery and internal modem and/or LAN controller.

EVERYWHERE CONNECTIVITY

Equipped with an internal 56K V90 modem and LAN card, the VERSA Txi comes with two dedicated hotkeys providing instant access to e-mail and the web.

OPTIMUM MANAGEABILITY

Easily manageable with a DMI 2.3 the VERSA Txi's compatible architecture allows remote management. This is further enhanced with the inclusion of Wake On LAN support and security features including an ATA password, Power On Password and USB key support.
